# VPK RUBBER CORPORATION

Product Catalogue

## About Us

VPK RUBBER CORPORATION was established in 2002 and is a leading and a reputed manufacture of industrial rubber compoents, Like O'Rings, Gasket, Rubber Bush, Rubber Bellows, Rubber Oil Seals, Rubber Sleeves and customers specified items.

Made all type of rubber such as viton Silicon, Nitrile, Neoprene, EPDM, SBR, Natural Rubber. And also we Trading Rubber Sheets. Flooring, EPDM Beadings. Adhesive Tapes. Electrical mats.

VPK RUBBER CORPORATION is a proved manufacturer of Ever-lean inventory. Our packing standards are tailor made to the requirements demanded by every product and are nothing but the best in the industry. On time Delivery. ensured by our computerized operations and our warm Support Have heped us to acquire a huge client base.

## Valve Parts

VPK produces knife gate valve seats, wedge gate valve seats, butterfly valve seats, butterfly disc lining, loose liners, rubber lined, butterfly bodies. A butterfly valve seat is a type of flow control devise, typically used to regulate o fluid flowing through a section of pipe. It requires good quality of resilient rubber seat. The rubber seat may either reinforced or without reinforced (loose liners). VPK makes butterfly valve seats, bonded with Steel, aluminum and Bakelite. Other types are directly bonded with body. The resilient seats should satisfy high mechanical properties, aging properties, good swell properties and resilience with higher end of purity to improve its working performance.

We have wide range of elastomers / compounds to meet international standards. The other valve parts are Knife gate valve seats, wedge gate linings, butterfly valve disc lining (disc encapsulation).

VPK Butterfly valve seats are having the following advantages,

- » Outstanding operational performance
- » High reliability
- » Extended service life
- » Low operational torque values.
- » Excellent sealing performance
- » Wide range of applications
- » Wide temperature range
- » Customized to specific applications

## Butterfly Valve

Size 2" to 36" (50 mm to 900 mm)

Pressure Rating : PN10, PN16, PN25, Class 150

Design Standard : API 609 Cat A, EN 593 (BS 5155), MSS SP 67

## Versatile Range

End connections: Wafer, Lugged, Flanged

Elastomer options: Black/ White Nitrile, EPDM, Viton, Hypalon, Silicon

Specials: Long Neck, Extended Stem

Product Range	Application Range	Polymer Range
Bellows, Bellows Valve, Dampers, Castor Assy., O Rings, Gaskets, Washers	White Goods	Natural Nitrile Neoprene EPDM Hypalon Viton Silicon SBR Polyacrylic Polyurethane
Mounting Pads, Buffers, Rings, Seals, Covers, Anti Vibration Dampers, Bushes, Bearing Pads, Spacers	Automobile	
Mounting Sleeves, Bushes, Dampers, Brackets	Two/Four Wheelers	
Flared Vacum Rings, Chuck Blocks, Slurry Nozzle, Gasket, Rollers, Cones, Multi Flex Connectors	Industrial Automation
